

XANZAREE

Brand sheet - digital and print basics (light theme default)

Tagline	Heritage - Adventure - Pastoral
Style	Australian station, heritage serif, shield crest
Primary uses	Gate signage, hat embroidery, website, documents
Hero elements	Rough Collie (seated, regal) + Southern Cross

Colour palette

Deep Ocean	#01376F	Use as primary
Navy	#041642	
Ocean Mid	#1E3755	
Slate Blue	#465A71	
Surf Mist	#FAFBF8	Background / paper
Cool Steel	#3E4145	
Charcoal	#181819	

Light theme tokens

Background	#FAFBF8	Link	#01376F
Surface	FFFFFF	Primary	#01376F
Surface Alt	#F3F5F6	Primary Hover	#041642
Border	#D6DADF	Secondary	#1E3755
Text	#181819	Accent	#465A71
Text Muted	#3E4145		

Functional UI colours

Recommended additions for edit, settings, admin, warning, and delete actions.

Action	Default	Hover	Intended usage
Edit	#01376F	#041642	Standard edit actions, save changes, inline editing, primary action buttons.
Settings	#465A71	#39495C	Settings panels, preferences, configuration links, gear-icon actions.
Admin	#5B4A3A	#47392D	Privileged controls, admin-only tools, management sections, elevated actions.
Warning	#A06A1C	#835617	Archive, disable, reset, or irreversible actions that are not destructive.
Delete	#8B2E2E	#6F2323	Delete, remove, purge, destructive actions, confirmations, permanent warnings.

Usage hierarchy

Edit uses core brand blue. Settings uses slate blue. Admin uses heritage brown. Warning uses muted amber. Delete uses oxblood red for clearly destructive actions only.

Typography guidance

- Preferred:** heritage serif in ALL CAPS for headings and brand marks.
- Body copy:** clean sans-serif for readability (system default is fine).
- Do:** keep generous spacing; let Surf Mist / white carry the paper feel.
- Don't:** use thin hairline serifs or overly decorative scripts; they fail in embroidery and signage.

Hero image and logo assets

Homepage hero: Use xanzaree_hero_2400w.webp as the homepage hero background with a subtle Deep Ocean gradient overlay for legibility.

Header and logo lockups: Use xanzaree_logo_transparent_1024h.png on Surf Mist backgrounds for header, brand lockups, and document mastheads.

Functional colours: Apply the new action colours to buttons, icons, and admin controls only. Do not let warning or delete colours dominate the general interface.

Application notes

General UI	Stay within Deep Ocean, Navy, Ocean Mid, Slate Blue, Surf Mist, and neutral token colours.
Destructive actions	Use the delete colour only for delete, remove, purge, or permanent confirmation states.
Caution states	Use the warning colour for archive, disable, reset, or irreversible but non-destructive actions.
Admin surfaces	Use the admin colour for privileged management tools, not for everyday workflow actions.
